

Hereford Volunteer Fire Company starts new service

Squad 442 is equipped with rescue tools that will now allow us to provide rescue services to our community. Previously, services were provided by surrounding fire companies who were equipped with these specialized tools. Fire companies from other counties, and even Pennsylvania, have responded to assist. While we cannot begin to express our gratitude to these companies, sometimes rescue services were simply too far. We will now be able to respond as quickly as possible to emergencies that require these services.

Our members have spent countless hours preparing for this new service. From trainings and meetings, to simply making themselves familiar with the new equipment, our members have dedicated themselves to building the knowledge needed to perform these rescue services.

We also could not have done this without the support and donations from our community. There are not enough words to express how grateful we are.

Again, thank you to our members, community, and surrounding fire companies
